Subject: RE: draft email ask for SIT
Attachments: FY2011-FY2019 NEI Inspection-Evaluation Report 10-16-18.pdf

Thanks Sara. Looks good. I just rearranged the "ask" points in what I think is the order of importance. I would stress to them that we'd like to hear from each region on at least the first 4 topics. Notes look good. I've attached an ICIS report with AT inspections/info requests currently in the system.

Thanks!

Here's the draft, still putting the notes into a Word document. Let me know what you think.

All,

Attached are notes from the meeting for those unable to attend. As noted, we had a discussion of some of the information we're going to need to present for the Executive Board briefing on November 13th. Specifically, we asked for the following information to be provided by COB Friday October 26th:

Non-Responsive

Non-Responsive

- Obstacles/challenges – we listed the changes to the OIAI policy as a potential challenge at the last briefing, examples of where this has impacted your work in FY18 would be especially welcome

Non-Responsive

Sara Ayres
